MANAGEMENT DISCUSSION AND ANALYSIS

Overview:-

India's textiles sector is one of the oldest industries in Indian economy dating back several centuries. Even today, textiles sector is one of the largest contributors to India's exports with approximately 11 per cent of total exports. The textiles industry is also labour intensive and is one of the largest employers. The textile industry has two broad segments. First, the unorganised sector consists of handloom, handicrafts and sericulture, which are operated on a small scale and through traditional tools and methods. The second is the organized sector consisting of spinning, apparel and garments segment which apply modern machinery and techniques such as economies of scale

The year 2017-18 was marked with strong macro-economic fundamentals. However, the growth of gross domestic product (GDP) moderated in 2017-18 vis-à-vis 2016-17. An important macro-economic challenge faced by the Indian economy relates to the declining trend in the investment and saving rates as also rising crude prices. Nonetheless, medium-term macro outlook remains bright against the background of implementation of GST, recovering global economy, relatively stable prices, prediction of normal monsoon and improvement in indicators of external sector

Under the overall challenging scenario, the company has witnessed tough business conditions and its performance has remained constrained. The company has been able to achieve volume growth through persistent efforts in various customer segments however the margins remained under pressure. Market disruptions on account of macro level economic measures also adversely impacted the industry and the company for a good part of the year, leading to inventory built-up, liquidity crunch as well as pricing uncertainties.

Segment Analysis and Performance:-

The Company operated only in one segment, Trading of Fabrics. During the year under review, the company has made profit of Rupees Seven Lacs Twenty Four Thousand Eight Hundred Fifty Eight in the current year as compared to approximate Profit of Rupees Four Lacs Twenty Nine Thousand Two Hundred Nine in previous year.

Research and Development:-

Company recognizes the importance of research and development across all important areas and continues to maintain and update its functional facilities, in spite of its financial position, in order to meet the changing product requirements of the customers, achieve cost efficiencies and meet compliance requirements of statutory agencies.

Opportunities, Threats and Risks:

Availability of good quality fabrics at competitive prices is of major concern for the company going forward. The prices continue to go through high volatility and thereby making it difficult to enter into long term contracts with customers. The volatility faced on the foreign exchange market is also very pivotal as far as exports business of the company is concerned.

Human Resources Development and Health & Safety:-

The Company follows proper policies and practices for the welfare of its employees and takes adequate measures for attracting and retaining the right talent.

The Company does not operate in any manner in which it violates any environmental laws. Moreover, the employees of the Company are being provided clean, healthy and pleasant work environment.

Internal Financial Control:-

There are adequate internal control system existing in the company across all the areas of operations and processes. This ensures efficiency of operations, compliance with internal policies and applicable laws and regulations, protection of resources and assets and accurate reporting of financial transactions. The audit committee reviews the adequacy and effectiveness of the internal control systems and improvements are carried out to strengthen them.

Cautionary Statement:-

Statements in the Management Discussion and Analysis Report containing the objectives, expectations or predictions of the company may be forward-looking within the meaning of securities laws and regulations. Actual results may differ materially from those expressed in the statement. The operations of the Company could be influenced by various factors such as domestic and global demand and supply conditions affecting sales volumes and selling prices of finished goods, input availability and cost, government regulations, tax laws, economic developments within the country and other factors such as litigation and industrial relations.

**INDEPENDENT AUDITORS' REPORT
TO THE MEMBERS OF AMANI TRADING AND EXPORTS LIMITED**

Report on the Financial Statements

We have audited the accompanying financial statements of **AMANI TRADING AND EXPORTS LIMITED** ("the Company"), which comprise the Balance Sheet as at 31st March, 2018, the Statement of Profit and Loss (including other comprehensive income), the Cash Flow Statement and the statement of changes in equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's management is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and the changes in equity of the Company in accordance with the accounting principles generally accepted in India including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant rules issued thereunder.

This responsibility also includes the maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidences about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made

by Company's Board of Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Ind AS, of the financial position, of the Company as at 31st March, 2018, and its financial performance (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

"ANNEXURE B" TO THE AUDITORS' REPORT

Report on the Internal Financial Control clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 ("the act")

We have audited the internal financial controls over financial reporting of **AMANI TRADING AND EXPORTS LIMITED** ("the company") as of March 31, 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management Responsibility for Internal Financial Controls

The company's management is responsible for establishing and maintaining internal financial control based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India [ICAI]. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the act.

Auditors' Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's Judgement, including the assessment of the material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
3. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected, also, projections any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Note: 1-Corporate Information:

Amani Trading and Exports Limited is engaged in trading of cotton fabrics and textiles products.

The company is a public company domiciled in India and is incorporated under the provisions of the Companies Act, 1956 (now Companies Act, 2013). Its shares are listed at the Bombay Stock Exchange (BSE Limited) in India. The registered office of the company is located at 32, Milanpark Society, Near Jawahar Chowk, Maninagar, Ahmedabad - 380 009.

The financial statements for the year ended March 31, 2018 were authorised for issue in accordance with a resolution of the directors on May 29, 2018.

Note: 2-Significant Accounting Policies:

The following note provides list of the significant accounting policies adopted in the preparation of these financial statements.

These policies have been consistently applied to all the years presented unless otherwise stated.

1 Basis of preparation:

- A** The financial statements have been prepared in accordance with Indian Accounting Standards [Ind AS] notified under the Companies [Indian Accounting Standards] Rules, 2015, as amended and other relevant provisions of the Companies Act, 2013.
- B** For all periods up to and including the year ended March 31, 2017, the Company has prepared its financial statements in accordance with the accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies [Accounts] Rules, 2014 [Previous GAAP]. The Company has adopted Ind AS as per Companies [Indian Accounting Standards] Rules, 2015 as notified under Section 133 of the Companies Act, 2013 for these financial statements beginning April 01, 2017. As per the principles of Ind AS 101, the transition date to Ind AS is April 01, 2016 and hence the comparatives for the previous year ended March 31, 2017 and balances as on April 01, 2016 have been restated as per the principles of Ind AS. Reconciliations and descriptions of the effect of the transition have been summarized in note 30.
- C** The financial statements have been prepared on historical cost basis, except for the following assets and liabilities which have been measured at fair value or revalued amount:
- Derivative financial instruments
 - Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments)
 - Defined benefit plans
 - Certain items of Property, Plant and Equipment

2 Use of Estimates:

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of income and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments are provided below. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Critical estimates and judgments**a Income Taxes:**

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions, and in estimation of deferred tax asset or liability.

b Property, plant and equipment:

The charge in respect of periodic depreciation on Property, Plant and Equipment is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. Management reviews the residual values, useful lives and methods of depreciation of property, plant and equipment at reasonable intervals and any revision to these is recognised prospectively in current and future periods. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. Significant judgment is involved in determining the estimated future cash flows and/or Net Realisable Value from the Property, Plant and Equipment to determine its value in use to assess whether there is any impairment in its carrying amount as reflected in the financials.

c Employee Benefits:

Significant judgments are involved in making estimates about the life expectancy, discounting rate, salary increase, etc. which significantly affect the working of the present value of future liabilities on account of employee benefits by way of defined benefit plans.

3 Foreign Currency Transactions:

The Company's financial statements are presented in Indian Rupees (INR), which is the functional and presentation currency.

Note: 2-Significant Accounting Policies-Continued:

4 Revenue Recognition:

- A** Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government and is shown net of returns, trade allowances, rebates, value added taxes and volume discounts.
- B** Value Added Tax / GST is not received by the Company on its own account, but tax is collected on value added to the Goods by the Company on behalf of the government. Accordingly, it is excluded from revenue.
- C** For revenue to be recognised, the following specific recognition criteria for each types of revenue must be satisfied:
 - a Sale of Goods:**
Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on delivery of the goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates, if any.
Revenue from sales is based on the price in the sales contracts, net of discounts. Historical experience is used to estimate and provide for customer claims. No element of financing is deemed present as the sales are made with the normal credit terms as per prevalent trade practice and credit policy followed by the Company.
 - b Service Income:**
Service income is recognised as per the terms of contracts with the customers when the related services are performed and are net of GST, wherever applicable.
 - c Interest Income:**
For all debt instruments measured at amortised cost, interest income is recorded using the effective interest rate [EIR]. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.
 - d Claims receivable on account of insurance are accounted for to the extent the Company is reasonably certain of their ultimate collection.**
 - e Other Income:**
Other income is recognised when no significant uncertainty as to its determination or realisation exists.

5 Government Grants:

- A** Government grants are recognised in accordance with the terms of the respective grant on accrual basis considering the status of compliance of prescribed conditions and ascertainment that the grant will be received.
- B** Government grants related to revenue items are recognised on a systematic and gross basis in the Statement of Profit and Loss over the period during which the related costs intended to be compensated are incurred.
- C** Government grants related to assets are recognised as income in equal amounts over the expected useful life of the related asset.

6 Taxes on Income:

- Tax expenses comprise of current and deferred tax.
- A Current Tax:**
 - a** Current tax is measured at the amount expected to be paid on the basis of reliefs and deductions available in accordance with the provisions of the Income Tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.
 - b** Current tax items are recognised in correlation to the underlying transaction either in statement of profit and loss, Other Comprehensive Income (OCI) or directly in equity.
- B Deferred Tax:**
 - a** Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.
 - b** Deferred tax liabilities are recognised for all taxable temporary differences.
 - c** Deferred tax assets are recognised for all deductible temporary differences and carry forward of unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and carry forward of unused tax losses can be utilized.
 - d** The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.
 - e** Deferred tax assets and liabilities are measured at the tax rates [and tax laws] that have been enacted or substantively enacted at the reporting date and are expected to apply in the year when the asset is realised or the liability is settled.
 - f** Deferred tax items are recognised in correlation to the underlying transaction either in statement of profit and loss, Other Comprehensive Income (OCI) or directly in equity.
 - g** Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities.

7 Property, Plant and Equipment:

- A** Property, Plant and Equipment are stated at historical cost of acquisition less accumulated and impairment loss, if any. Historical cost [Net of input tax credit received / receivable] includes related expenditure and pre-operative & project expenses for the period up to which the assets are ready for its intended use, if the recognition criteria are met and the present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition for a provision are met. On transition to Ind AS as on April 1, 2016, the Company has elected to measure its Property, Plant and Equipment at carrying value as per previous GAAP.

Note: 2-Significant Accounting Policies-Continued:

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance charged to the statement of profit and loss during the reporting period in which they are incurred.

- B** Depreciation on tangible assets is provided on "written down value method". Useful life of tangible fixed assets are as per prescribed in Schedule-II of the companies Act, 2013.
The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used. However, management reviews the residual values, useful lives and methods of depreciation of property, plant and equipment at reasonable intervals. Any revision to these is recognized prospectively in current and future periods.
- C** Depreciation on impaired assets is calculated on its reduced value, if any, on a systematic basis over its remaining useful life.
- D** Depreciation on additions/ disposals of the Property, Plant & Equipments during the year is provided on pro-rata basis according to the period during which assets are used.
- E** An item of property, plant and equipment and any significant part thereof initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset [calculated as the difference between the net disposal proceeds and the carrying amount of the asset] is included in the statement of profit and loss when the asset is derecognised.

8 Impairment of Assets:

The carrying amounts of Property, Plant and Equipment and intangible assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the Company measures it on the basis of discounted estimated cash flows for the remaining years (remaining useful life). Assessment is also done at each Balance Sheet date as to whether there is any indication that an impairment loss recognized for an asset in prior accounting periods may no longer exist or may have decreased. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

9 Borrowing Costs:

- A** Borrowing costs consist of interest and other borrowing costs that are incurred in connection with the borrowing of funds. Other borrowing costs include ancillary charges at the time of acquisition of a financial liability, which is recognised as per EIR method. Borrowing costs also include exchange differences to the extent regarded as an adjustment to the borrowing costs.
- B** Borrowing costs that are directly attributable to the acquisition/ construction of a qualifying asset are capitalised as part of the cost of such assets, up to the date the assets are ready for their intended use.
- C** For capitalization of eligible borrowing costs which are not specifically attributable to the acquisition, construction or production of a particular qualifying asset, a weighted average capitalization rate is applied for all the eligible assets. The weighted average rate is taken of the borrowing costs applicable to the outstanding borrowings of the company during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset.

10 Inventories:

- A** Inventories are valued at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.
- B** Costs (net of input credit of VAT/GST) comprises all cost of purchase, cost of conversion and other costs incurred in bringing inventories to their present location and condition. Cost formulae used are "First In First Out", "weighted Average Cost", or "Specific Identification" as applicable.
- C** Write down of inventories to net realisable value is recognised as an expenses and included in "Changes in inventories of Finished goods, Work-in-progress and Stock-in-Trade" and "Cost of Material Consumed" in the relevant note in the Statement of Profit and Loss.

11 Cash and Cash Equivalents:

Cash and Cash equivalents for the purpose of Cash Flow Statement comprise cash and cheques in hand, bank balances, demand deposits with banks where the original maturity is three months or less and other short term highly liquid investments.

12 Provisions, Contingent Liabilities, Contingent Assets and Commitments:

- A** Provisions are recognised when the Company has a present obligation as a result of past events and it is probable that the outflow of resources will be required to settle the obligation and in respect of which reliable estimates can be made. When the company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. A disclosure for contingent liability is made when there is a possible obligation, that may, but probably will not require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision/ disclosure is made. Contingent assets are not recognised but are disclosed separately in the financial statements. Commitments include the amount of purchase order (net of advances) issued to parties for completion of assets. Provisions, contingencies and commitments are reviewed at each balance sheet date and adjusted to reflect the correct management estimates. Contingent assets are not recognised and not disclosed separately in financial statements.

Note: 2-Significant Accounting Policies-Continued:

- B** If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability.

13 Employee Benefits:**A Short term obligations:**

Liabilities for wages and salaries, including leave encashments that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured by the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

B Long term employee benefits obligations:**i Gratuity:**

Liabilities of gratuity is determined as per the provision of Gratuity Act who have completed the requisite period for being eligible for Retirement benefits under the payment of Gratuity Act, 1972.

ii Provident Fund:

Provision of The Employees' Provident Funds and Miscellaneous Provisions Act, 1952 are not applicable to the company.

iii Leave Encashment:

Provision for leave encashment is made on accrual basis for accumulated leave that employees can encash in future.

14 Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A Financial assets:**a Initial recognition and measurement:**

All financial assets are recognised initially at fair value plus in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the settlement date, i.e., the date that the Company settles to purchase or sell the assets.

b Subsequent measurement:

For purposes of subsequent measurement, financial assets are classified in following categories:

i Debt Instruments at amortised cost:

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held with an objective of collecting contractual cash flows
- Contractual terms of the asset give rise on specified dates to cash flows that are "solely payments of principal and interest" (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the statement of profit or loss. The category generally applies to trade and other receivables..

ii Debt Instruments at fair value through other comprehensive income :

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- The asset is held with objective of both - for collecting contractual cash flows and selling the financial assets
- The asset's contractual cash flows represent SPPI.

Debt Instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the OCI. However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Statement of Profit and Loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

iii Debt Instruments and derivatives at fair value through profit or loss (FVTPL):

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

Instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

c Derecognition:

A financial asset [or, where applicable, a part of a financial asset] is primarily derecognised when:

- i The right to receive cash flows from the asset have expired, or
- ii The Company has transferred its right to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either [a] the Company has transferred substantially all the risks and rewards of the asset, or [b] the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its right to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained. When the Company has transferred the risk and rewards of ownership of the financial asset, the same is derecognised.

Note: 2-Significant Accounting Policies-Continued:**d Impairment of financial assets:**

In accordance with Ind AS 109, the Company applies expected credit loss [ECL] model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a Financial assets that are debt instruments, and are measured at amortised cost
- b Trade receivables or any contractual right to receive cash or another financial asset
- c Financial assets that are debt instruments and are measured as at FVTOCI

The Company follows 'simplified approach' for recognition of impairment loss allowance on Point c provided above. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it requires the company to recognise the impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive [i.e., all cash shortfalls], discounted at the original EIR. ECL impairment loss allowance [or reversal] recognized during the period is recognized as income/ expense in the statement of profit and loss. The balance sheet presentation for various financial instruments is described below:

- a Financial assets measured as at amortised cost and contractual revenue receivables: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet, which reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.
- b Financial guarantee contracts: ECL is presented as a provision in the balance sheet, i.e. as a liability.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics.

B Financial liabilities:**a Initial recognition and measurement:**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

b Subsequent measurement:

Subsequently all financial liabilities are measured as amortised cost except for financial guarantee contracts, as described below:

i Loans and borrowings:

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in statement of profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

c Derecognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

C Reclassification of financial assets:

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from thereclassification date which is the first day of the immediately next reporting period following the change in business model as per Ind AS 109.

D Offsetting of financial instruments:

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

15 Derivative Financial Instruments:

Derivatives are recognised initially at fair value and subsequently at fair value through profit and loss.

16 Earnings per Share:

Basic earnings per share are calculated by dividing the net profit or loss [excluding other comprehensive income] for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events such as bonus issue, bonus element in a right issue, shares split and reverse share splits [consolidation of shares] that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss [excluding other comprehensive income] for the year attributable to equity share holders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

Note: 26-Financial Instruments:

A Fair values hierarchy:

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three Levels of a fair value hierarchy. The three Levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: quoted prices [unadjusted] in active markets for financial instruments.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data rely as little as possible on entity specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Notes to the Financial Statements

Note: 27-Financial Risk Management:-Continued:

B Risk Management:

The Company's activities expose it to market risk, liquidity risk, interest risk and credit risk. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements. The Risk Management is embedded in the company's operating framework. The Audit Committee of the Board evaluates the Risk Management systems and the Board takes responsibility for the total process of Risk Management in the organization, which includes framing, implementing and monitoring Risk Management Plan. The Company does not actively engage in the trading of financial assets for speculative purposes nor does it write options.

The most significant financial risks to which the Company is exposed are described below:

a Credit risk:

Credit risk arises from the possibility that customer may not be able to settle its obligations as agreed. The company is exposed to credit risk from trade receivables, and other financial assets.

The Company periodically assesses the financial reliability of the counter party taking into account the financial condition, current economic trends, analysis of historical bad debts and ageing of accounts receivable. Party-wise credit is monitored and reviewed accordingly.

Bank deposits :

The company maintains its Cash and cash equivalents and Bank deposits with reputed and highly rated banks Hence, there is no significant credit risk on such deposits.

Trade Receivable:

The Company is exposed to credit risk in the event of non-payment by customers.

The Company trades with recognized and credit worthy customers. It is the Company's policy that all customers who wish to trade on credit terms are subjected to scrutiny and periodic review.

In addition, receivable balances are monitored on an on-going basis with the result that the Company's exposure to bad debts is not significant.

Adequate expected credit losses are recognized as per the assessments based on historic data and prevalent market conditions.

b Liquidity risk:

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates. In addition, the Company's liquidity management policy involves considering the level of liquid assets necessary to meet these.

Note: 29- First Time Adoption of Ind AS:

The accounting policies set out in the note here have been applied in preparing the financial statements for the year ended March 31, 2018, the comparative information presented in these financial statements for the year ended March 31, 2017 and in the preparation of an opening Ind AS balance sheet as at April 1, 2016 (the Company's date of transition).

In preparing its opening Ind AS balance sheet, the Company has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under Companies [Accounting Standards] Rules, 2006 [as amended] and other relevant provisions of the Act [previous GAAP]. An explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position and financial performance is set out in Note 30.

Exemptions and exceptions availed:

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

A Deemed cost:

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments required under other Ind AS. This exemption can also be used for intangible assets covered by Ind AS 38 "Intangible Assets".

Accordingly, the Company has elected to measure all of its property, plant and equipment and intangible assets at their previous GAAP carrying values.

B Estimates:

An entity's estimates in accordance with Ind ASs at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at April 1, 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP.

C Classification of financial assets:

As per the requirements of Ind AS 101 the Company assessed classification of financial assets on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

D De-recognition of financial assets and liabilities:

Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. The company has followed such policy. However, there were no assets or liabilities to be derecognised.

E Transition to Ind AS- Reconciliations:

The following reconciliations, as provided in Note 30, provide a quantification of the effect of significant differences arising from the transition from previous GAAP to Ind AS as required under Ind AS 101:

- i. Reconciliation of Equity as at 1st April 2016 (Transition date) and as at 31 March 2017
- ii. Reconciliation of Net Profit for the year ended March 31, 2017:

**** Fair Valuation adjustments on equity investments:**

Under previous GAAP, the Company accounted for long term investments in quoted equity shares as investment measured at cost less provision for other than temporary diminution in the value of investments. Under Ind AS, the Company has designated such investments as FVTPL investments. Ind AS requires FVTPL investments to be measured at fair value. At the date of transition to Ind AS, difference between the instruments fair value and Indian GAAP carrying amount has been recognised in retained earning.
