MANAGEMENT DISCUSSION AND ANALYSIS

Overview:-

Indian textile industry had a lackluster and flat performance over the last financial year. There are a few important factors that explain the trend. The first and major one is China changing the cotton and yarn importing policy via maintaining a huge government reserved stock of cotton. The second key factor is the continued and recessionary demand from key export destinations such as the US, EU, South Korea and Japan. The third factor and a serious concern is the strong emergence of Bangladesh, Vietnam, Cambodia, Myanmar and Ethiopia as the fast-growing producers and exporters, with many concessions including duty free imports from the US and EU. Going forward, India may become less competitive when the TPP (Trans-Pacific Partnership) agreement comes into force in 2018 which would allow huge duty free advantage to several competing countries.

On domestic front, a weak demand for fabrics and yarns owing to a fall in exports vis-a-vis competition from five small, newly emerging countries played a disturbing role. In light of this scenario, the performance of the company during the year saw a setback.

Segment Analysis and Performance:-

The Company operated only in one segment, Trading of Fabrics. During the year under review, the company has made approximate loss of Rupees Twenty Thousand in the current year as compared to approximate loss of Rupees Five Lacs Forty Nine Thousands.

Research and Development:-

Company recognizes the importance of research and development across all important areas and continues to maintain and update its functional facilities, in spite of its financial position, in order to meet the changing product requirements of the customers, achieve cost efficiencies and meet compliance requirements of statutory agencies.

Opportunities, Threats and Risks:

Availability of good quality fabrics at competitive prices is of major concern for the company going forward. The prices continue to go through high volatility and thereby making it difficult to enter into long term contracts with customers. The volatility faced on the foreign exchange market is also very pivotal as far as exports business of the company is concerned.

Human Resources Development and Health & Safety:-

The Company follows proper policies and practices for the welfare of its employees and takes adequate measures for attracting and retaining the right talent.

The Company does not operate in any manner in which it violates any environmental laws. Moreover, the employees of the Company are being provided clean, healthy and pleasant work environment.

Internal Financial Control:-

There are adequate internal control system existing in the company across all the areas of operations and processes. This ensures efficiency of operations, compliance with internal policies and applicable laws and regulations, protection of resources and assets and accurate reporting of financial transactions. The audit committee reviews the adequacy and effectiveness of the internal control systems and improvements are carried out to strengthen them.

Cautionary Statement:-

Statements in the Management Discussion and Analysis Report containing the objectives, expectations or predictions of the company may be forward-looking within the meaning of securities laws and regulations. Actual results may differ materially from those expressed in the statement. The operations of the Company could be influenced by various factors such as domestic and global demand and supply conditions affecting sales volumes and selling prices of finished goods, input availability and cost, government regulations, tax laws, economic developments within the country and other factors such as litigation and industrial relations.

b) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles ('GAAP') requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities on the date of the financial statements. Actual results could differ from those estimates. Any revision of accounting estimates is recognized prospectively in current and future periods.

c) Fixed Assets and Depreciation :

Fixed assets are accounted at the cost of acquisition. They are stated at historical cost less accumulated depreciation. Depreciation on fixed assets for the year has been provided on written down value method at the rates and manner prescribed in Schedule II of the Companies Act, 2013.

d) Investments :

Investments are in the nature of Non current investment. No current investment are stated at cost. Provision for diminution in the value of Non-current investment is made only if such a decline is other than temporary. Dividend on investments is accounted for as and when received.

e) Sales :

g) Recognition of Income and Expenditure

Income and expenditure are recognised on accrual basis.

h) Inventories :

i) Taxes on Income :

Income tax provision comprises current tax provision and deferred tax provision. Current tax provision is made annually based on the tax liability computed after considering tax allowances and deductions.

Deferred tax is recognised on timing difference between the accounting income and the taxable income for the year that originate in one period and are capable of reversal in one or more subsequent periods. Such deferred tax is quantified using the tax rates and laws enacted or substantively enacted as on the Balances Sheet date.

Deferred tax assets are recognised and carried forward to the extent that there is a reasonable/virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

j) Impairment loss

Impairment loss is provided to the extent the carrying amount of assets exceeds their recoverable amounts. Recoverable amount is the higher of an asset's net selling price and its value. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of the asset and from its disposal at the end of its useful life. Net selling price is the amount obtainable from sale of the asset in the arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

k) Provisions and contingencies

Provisions are recognised when the company has a legal and constructive obligation as a result of a past event, for which it is probable that cash outflow will be required and a reliable estimate can be made of the amount of the obligation. Contingent liabilities are disclosed when the company has a possible or present obligation where it is not probable that an outflow of resources will be required to settle it.
